

HOW WILL YOU MAKE AN **IMPACT** IN 2017?

Dear Clearities,

Welcome to 2017! Wishing a blessed and prosperous year ahead and extend my heartiest felicitations to you and all in family. With this note, I would like to start by asking how will you make an impact in 2017? We must remember that operational excellence is an imperative for each one of us. We must focus on delivering the best solution in the smartest, fastest way possible and not give up or give in to weaker instincts. The Constricted space of doing as we are told can no longer be the case. We must embrace automation to become more productive in the work that we do and create a mechanism activity one time and build automation to take care of the activity next time around at all phases in our way of working. The Foundation for all of this is our culture, our values and especially our infrastructure for lifelong learning's. It's important for all of us to understand that exceptional organizations that flourish over time are defined by a purpose and our purpose is to *make an impact that matters* !. The road ahead is long and not easy but to get there and go beyond we must embrace automation in our thoughts, deeds and actions. You can only make an impact when you start envisioning the future where our ability to learn, and to deliver the purposeful fruit of those learning's, helps us all be more.

Together, **we can we shall**. Let us do this. Wishing you a Happy New Year.

Best regards.
